

AVALON TECHNOLOGY SERVICES

CAPABILITY STATEMENT

DIGITAL TRANSFORMATION & CYBERSECURITY · SMALL BUSINESS

WHO WE ARE

Avalon Technology Services is a Los Angeles-based small business delivering cybersecurity and digital transformation support to federal agencies as a subcontractor. Founded in 2025, Avalon pairs senior, hands-on technical delivery with formal program-management discipline — the named expert on the proposal is the one doing the work.

A prime who teams with Avalon inherits direct access to senior engineering talent and a single accountable point of contact — not another subcontracting layer between the client and the work.

CORE COMPETENCIES

CYBERSECURITY

- Network & application penetration testing
- ATO / RMF authorization & accreditation
- FISMA, FedRAMP & NIST 800-53 compliance
- Zero Trust architecture implementation
- Security operations, IR & threat hunting

DIGITAL TRANSFORMATION

- Application modernization & cloud-native dev
- Cloud architecture, migration & FinOps
- DevSecOps & CI/CD pipeline engineering
- IAM, network & infrastructure administration
- UI/UX, accessibility & CX strategy

DIFFERENTIATORS

- › **Senior-led delivery.** Every engagement gets founder-level technical attention — not a big-firm bench billing junior staff at senior rates.
- › **Engineering depth.** A decade of enterprise software engineering and consulting experience, paired with PMP-certified program discipline.
- › **Speed & responsiveness.** A flat structure and single accountable point of contact mean faster scoping and turnaround than a layered subcontracting chain.
- › **Cost.** Boutique-shop rates without the 2–3x markup large integrators add for the same work.

LEADERSHIP

BRANDON IRELAND — FOUNDER & CEO

A decade as a senior software engineer and technical consultant, including enterprise engagements at Taco Bell Corporate and Paramount+, alongside smaller agency work. That hands-on engineering background is paired with PMP-certified program-management discipline — every Avalon engagement gets it directly, with no bench of junior staff between the client and the person who understands the system.

Certifications: PMP · ITIL v4 Foundation · ITIL AI Governance

MISSION-CRITICAL FEDERAL IT & CYBERSECURITY

Zero Trust hardening, IT modernization, and compliance-ready outcomes for U.S. government agencies.

COMPANY SNAPSHOT

UEI	Y9MXMMHY3HA1
CAGE	242T0
Est.	2025
Vehicles	None held — subcontract teaming under primes' vehicles
Geography	Nationwide, remote-delivery capable (HQ: Los Angeles, CA)
Size	Small Business

NAICS CODES

- 541512** — Computer Systems Design Services (primary)
- 541511** — Custom Computer Programming Services
- 541519** — Other Computer Related Services
- 541611** — Administrative Management and General Management Consulting Services
- 541690** — Other Scientific and Technical Consulting Services

COMMITMENT TO QUALITY

Avalon is led directly by a PMP-certified founder with a decade of enterprise engineering experience where every engagement gets senior-level attention, never a subcontracted bench. Delivery follows NIST SP 800-53, RMF, and FISMA, evidence-backed and control-mapped by design. ISO 9001/27001 is on the roadmap as the pipeline scales.
